

Intern Certificate of Achievement

Presented to

Haoran Wei

For the outstanding contributions to ADP-PA (Autodesk Data Platform – Product Analysis) team in data aggregation automation testing development.

ADP-PA team is a team that delivers full end to end data analytics, from product instrumentation to business reporting. As a part of the team, Haoran has implemented and delivered efficient test automation scripts to ensure data quality of end-to-end big data. Through her internship, she has been well equipped with knowledge of some major big data technology and AWS applications and can become a qualified automation testing engineer.

Congratulations Haoran for all the achievements in Autodesk Data Platform PA team.

Ma Nan

Senior Software Engineer in Test
